PROFILE

I am a Frontend Engineer with 5+ years of experience building responsive, accessible web interfaces. Strong in JavaScript, HTML5, and CSS3, with a component-driven mindset and hands-on experience with React and TypeScript. I'm comfortable turning Figma designs into pixel-perfect, responsive UI, while building with accessibility in mind (semantic HTML, keyboard navigation, focus states, WCAG). In my free time, I also develop and maintain a personal React web app that I use daily. Collaborative and active in code reviews, with constructive feedback and best practices.

EDUCATION

Vocational higher educational degree - Software Engineering - <i>Eszterházy Károly Catholic University</i>	Eger, 2026
Vocational bootcamp - Software Development - <i>Greenfox Academy</i>	Budapest, 2020

EXPERIENCE

Innoweb Kft. <i>FrontEnd Web Developer</i>	April 2021 -
--	--------------

- Built and maintained responsive, user-facing pages and interactive UI features using HTML5, CSS3, and JavaScript, ensuring cross-browser compatibility.
- Collaborated with designers and stakeholders to translate design specifications (including Figma hand-offs) into pixel-accurate interfaces and reusable UI patterns.
- Ensured accessibility by applying WCAG practices (semantic HTML, keyboard navigation, clear focus states, ARIA where needed) and validating with manual checks.
- Worked with Git-based workflows (branching, pull requests, reviews) to improve collaboration and traceability.
- Developed backend functionality in PHP (server-side logic and data handling).
- Applied performance and SEO best practices (asset optimization, semantic markup, metadata) to support fast and discoverable pages.
- Confident user of Salesforce Marketing Cloud for building, testing, and deploying email campaigns (incl. content updates, QA, and basic troubleshooting).

Contract Web Development <i>Contractor</i>	July 2024 - January 2026
--	--------------------------

- Maintained reusable templates and UI sections to speed up delivery across campaigns.
- Coordinated directly with clients on requirements, estimates, and revisions, balancing deadlines with quality.
- Implemented responsive layouts with strong cross-browser behavior and accessibility-friendly markup.
- Delivered custom websites, landing pages, and HTML email newsletters for promotional and creative agencies

TECHNOLOGIES & SOFTWARES

HTML5 • JavaScript • CSS3 • React • TypeScript • Vite • PHP • C# • Java • RESTful API • Firebase • Git • MySQL
Adobe Photoshop • Adobe Illustrator • Figma • Jira • Salesforce • Trello • ClickUp • Slack • Microsoft 365 • Claude Code

SKILLS

Component-based UI • Responsive design • Accessibility (WCAG) • Performance optimization • SEO basics • Cross-browser compatibility • Figma-to-code workflow • Code reviews • Agile tasking (Jira/Trello) • Stakeholder communication
• HTML email production • Responsive templates
English – B2 • Norwegian – Elementary • Hungarian – Native
